

**Summarising Table
of the Main Characteristics of the CFR network**

Crt. no.	Element	Characteristic
1.	Network length	10.628,205 km
2.	Total network length	19.849,98 km
3.	Double line	2.916,94 km
4.	Simple line	7.711,265 km
5.	Electrified line	4.030,603 km
6.	Non-electrified line	6.597,602 km
7.	Number of stations	917
8.	Electronic interlocking systems	40
9.	Electrodynamic interlocking systems with computerized control station	15
10.	Electrodynamic interlocking systems	578
11.	Electromechanical interlocking installations	60
12.	Marshalling hump mechanization and automation installations	18
13.	Installations without interlocking	316
14.	Automatic block signals	944
15.	Automatic barriers	1.094
16.	Number of tunnels	171
17.	Length of tunnels	62 km
18.	Number of bridges and culverts	17.694
19.	European gauge	1.435 mm
20.	Wide gauge	1.520 mm
21.	Length of the optical fibre network	
22.	Length of interoperable km network	6.521,8 km
23.	Length of non-interoperable km network	3.754,1 km
24.	Length of the public infrastructure managed by CFR	10.622,302 km
25.	Length of the private infrastructure of CFR	5,903 km
