

Summarising Table of the Main Characteristics of the CFR network

Crt. no.	Element	Characteristic
1.	Network length	10.629 km
2.	Total network length	19.997 km
3.	Double line	2.909 km
4.	Simple line	7.720 km
5.	Electrified line	4.028 km
6.	Non-electrified line	6.601 km
7.	Number of stations	930
8.	Electronic interlocking systems	34
9.	Electrodynamic interlocking systems with computerized control station	15
10.	Electrodynamic interlocking systems	586
11.	Electromechanical interlocking installations	62
12.	Marshalling hump mechanization and automation installations	18
11.	Installations without interlocking	315
12.	Automatic block signals	1.014
13.	Automatic barriers	1.090
14.	Number of tunnels	171
15.	Length of tunnels	67,1 km
16.	Number of bridges and culverts	18.032
17.	European gauge	1.435 mm
18.	Wide gauge	1.520 mm
19.	Length of the optical fibre network	
20.	Length of interoperable km network	6.874,9 km
21.	Length of non-interoperable km network	3.754,1 km
22.	Length of the public infrastructure managed by CFR	10,625 km
23.	Length of the private infrastructure of CFR	4 km
