CFR NETWORK STATEMENT - 2027

ANNEX 28.b CHARGES FOR TELECOMMUNICATIONS ANCILLARY SERVICES

Validity: 13.12.2026 – 11.12.2027

Version: 16.0.0

Update: 13.12.2025

COMPANIA NATIONALA DE CAI FERATE CFR SA

Charges for telecommunications ancillary services

The charges (Article 6.4.3. of the NS) shall be set out by SC "Telecomunicaţii" S.A.

They shall represent the value at which the telecommunications services supplied are traded between the supplier and the beneficiary.

The method set down for the calculation of the charges shall consist in preparing the expense estimate as the economic documentation for determining the total estimated amount of the associated expenses.

For the preparation of the estimate for each service, there shall be taken into account the expenses related to the supply of the services based on the service supplied.

The value of the estimate shall be determined as the amount of the following chapters of expenses:

• The direct expenses per category of expenses comprising:

o cu* (cost unit) for each category of expenses in part;

o manpower;

• Total direct expenses;

• Indirect expenses;

• Total expenses;

• Profit.

*　Depending on the type and categories of expenses related to the supply of the services, there has been determined the price for a cost unit (cu) in respect of each category of expenses in part. A certain type of expense (e.g., spare parts for the analogue network) was divided by the number of the services implying that expense, thus practically obtaining the value of the cost unit for that type of expense, which was applied to all the services implying it.*

The charges levied by Societatea Telecomunicaţii CFR are:

Nr. crt.	Telecommunications services	U.M.	Unit price (lei without VAT)
A. RAILWAY COMMUNICATION SERVICES			
1	STANDARD access to the railway communications network via phone line	pcs.	36,10
2	Facilities package EASY access to the railway communications network via phone line	pcs.	44,70
3	PREMIUM access to the railway communications network via phone line	pcs.	46,40
4	ADVANCED access to the railway communications network via telephone line	pcs.	49,00
5	Access to the railway communications network via analog trunk	pcs.	193,10
6	BRA access to the railway communications network	pcs.	33,30
7	Access to the railway communications network through the E1 digital trunk	pcs.	211,10
8	TC circuit (km)	km	11,95
9	Terminal point of the TC circuit	pcs.	13,61
B. TRAFFIC SAFETY/OPERATION RAIL COMMUNICATION SERVICES			
10	Communication access point with selective traffic safety call	pcs.	252,55
11	BC communication access point for exploitation	pcs.	23,70
12	BC traffic safety communication access point	pcs.	91,10
13	BL exploitation access point	pcs.	42,15
14	BL traffic safety communication access point	pcs.	122,90
15	Party-Line communication access point (omnibus)	pcs.	63,70
16	Circuit for traffic safety (km)	km	18,31
17	Terminal point of the circuit for traffic safety	pcs.	21,24

18	Talking column line in CTMF	pcs.	140,70
19	Loudspeaker line for train maneuvering (50 W)	pcs.	133,05
20	Loudspeaker line for passenger notification (50 W)	pcs.	93,00
21	Control compass	pcs.	32,60
22	Railway teleconference minute	pcs.	0,13
C. DATA TRANSMISSION SERVICES			
23	Transport circuit 64 Kbps (over the distance 0-30 km)	pcs.	114,00
24	Transport circuit 64 Kbps (over the distance > 0-30 km)	pcs.	173,00
25	Transport circuit E1 (on the distance 0-30 km)	pcs.	155,00
26	Transport circuit E1 (on the distance > 0-30 km)	pcs.	190,00
27	Transport circuit E3	pcs.	1.100,0
28	STM transport circuit 1	pcs.	1.350,00
29	Ethernet circuit with 100 Mbps capacity (on the distance 0-30 km)	pcs.	310,00
30	Ethernet circuit with 100 Mbps capacity (on the distance > 0-30 km)	pcs.	540,00
31	Ethernet circuit with 1 Gbps capacity (on the distance 0-30 km)	pcs.	740,00
32	Ethernet circuit with 1 Gbps capacity (over the distance > 0-30 km)	pcs.	1.005,00
33	Ethernet circuit with 10 Gbps capacity (on the distance 0-30 km)	pcs.	2.300,00
D. INFORMATION SERVICES OF THE TRAVELING PUBLIC			
34	Internet HotSpot – "WI-FI" 92x20 Mpbs)	pcs.	465,50
35	Electric clock	pcs.	9,45
36	Electronic clock	pcs.	6,90
37	Display line	pcs.	56,05
E. INTERNATIONAL TELEX SERVICES			

38	International Telex Access Point	pcs.	173,20

F. MAINTENANCE SERVICES			
39	Closed circuit TV line access point	pcs.	127,50
40	Intercom station	pcs.	32,95
41	Anti-burglary system element	pcs.	54,25
42	Fixed radiotelephone maintenance with frequency spectrum management	pcs.	50,45
43	Mobile radio maintenance with spectrum management	pcs.	50,45
44	Handy radiotelephone maintenance with frequency spectrum management	pcs.	47,25
G. RENTAL SERVICES			
45	Rental of a disk phone	pcs.	1,50
46	Renting an analogue telephone with keypad	pcs.	1,60
47	Renting a fax machine	pcs.	39,00
48	Railway Teleconference Post Rental	pcs.	43,00
49	Fixed radiotelephone rental with frequency spectrum management	pcs.	57,10
50	Mobile radio phone rental with frequency spectrum management	pcs.	57,10
51	Portable radiotelephone rental with frequency spectrum management	pcs.	47,55
