

CFR NETWORK STATEMENT - 2022

ANNEX 12 **Main characteristics of the CFR Network**
(Concentrator table)

Validity: 13.12.2020 – 11.12.2021

Version: 11.1.0

Update: 04.04.2022

COMPANIA NATIONALA DE CAI FERATE CFR SA

Summarising Table of the Main Characteristics of the CFR network

No. Crt.	Element	Characteristics
1.	Network lengths of lines (EG)	10.628 km
2.	Network lengths of tracks	19.837 km
3.	Double-track line – lengths of lines (EG)	2.917 km
4.	Single-track line – lengths of lines (EG)	7.711 km
5.	Electrified line – lengths of lines (EG)	4.030 km
6.	Non-electrified line – lengths of lines (EG)	6.598 km
7.	Interoperable network lengths of lines (EG)	6.804 km
8.	Non-interoperable network lengths of lines (EG)	3.824 km
9.	European gauge (EG)	1.435 mm
10.	Wide gauge	1.520 mm
11.	Wide gauge length of lines	134 km
12.	Number of tunnels	171
13.	Length of tunnels	62 km
14.	Number of bridges and culverts	17.694
15.	Number of stations (section point) on the network	904
16.	Electronic interlocking system	67
17.	Electrodynamic interlocking system with computer-assisted control station	15
18.	Electrodynamic interlocking system	569
19.	Electromechanical interlocking system	39
20.	Automatic mechanization system for the hump in a gravity yard	18
21.	Signal box	304
22.	Automatic Block Line (ABL)	966
23.	Automatic signalling system at level crossings	1.151
