05.07.2023

Selection of the optimal investment scenario (selected variant) from the options analyzed in Feasibility Study and Technical Project for the modernization of the APAHIDA - SUCEAVA railway line, subsection 3: Pojorâta - Suceava

On 05.07.2023, the National Railway Company "CFR" S.A. and the Consultant represented by the Association BAICONS IMPEX S.R.L. - ISPCF S.A., organized an event for specialised public to present the selection process which lead to the optimal variant from technical and economic perspective for the Feasibility Study and Technical Project for the modernization of the APAHIDA - SUCEAVA railway line, subsection 3: Pojorâta - Suceava. The event was also attended by representatives of the Ministry of Transport and Infrastructure.

Several options were identified and analyzed in the feasibility study for Subsection 3, with scenario 2+ selected and approved by the Technical Economic Committee of CFR SA, with the following characteristics:

- modernizarea liniei c.f. prin îmbunătățirea geometriei traseului existent și reînființarea Hm Lucăcești, pe intervalul Ciprian Porumbescu - Berchișești
- Length 82.6 km, of which: 7,2 km double electrified line and 75,4 km simple electrified line
- IR train travel time at the maximum speed allowed by the designed route: 67 min
- saving time compared to the existing situation: 37 min
- estimated investment cost ~ 704 mil euros without TVA

Plățile aferente contractului de derulare a studiului de fezabilitate sunt asigurate din Fondul de Coeziune prin Mecanismul pentru Interconectarea Europei al Uniunii Europene (85%) și de la Bugetul de Stat al României.

Proiect cofinanțat din Fondul de Coeziune prin Mecanismul pentru Interconectarea Europei.
